

Rotorua Rollerskating Club Report for 2019

This year our numbers have continued to grow well in all of our classes, particularly in skaters wanting to become competitive, our development squad in late 2018 brought in to our team a further 9 new competitive skaters.

We will be running a development squad again this year in term three to help skaters transition from learn to skate classes to competition and non competitive advanced lessons and show groups.

The main event of our clubs year is our Mid Year Show which will be held in August and involves all skaters from all classes, both competitive and non competitive. It is a fundamental part of our club, growing our profile within the community and the team spirit across all levels of skaters.

Our show groups and quartets are growing in numbers and in term three we will be running our first Precision group. We have been really pleased to welcome Ngaire Tucker into our club and with this comes her wealth of knowledge in this area.

We are also continuing with our coaches trainee program, with four skaters working through this and being mentored by our lead coach David Hook. It is exciting to see skaters coming through this program and knowing we are trying to future proofing our club and will end up with a strong group of possible new coaches.

We are focussed on embracing the changes that Roll Art bring to the sport and are starting to develop our classes and individual programs with a stronger focus on the skills needed for this.

Kind Regards

Mayheur Hook
