

SNIPPET FIVE ADDITION

Please note the addition of Choreographic Sequence for freeskating

WHAT IS A CHOREOGRAPHIC SEQUENCE DANCE CIRCULATED PREVIOUSLY

Choreographic Sequence

- Sequence of free-choice elements, where the skaters must demonstrate: the ability to skate, creativity, choreographic ability, originality, musicality, with body movements, using all the personal space.
- The skaters must demonstrate the ability to skate on the music and to interpret the music using technical elements such as: steps, turns, arabesque, pivot, ina bauer, spread eagles, (not declared) one rotation jumps (included in the permitted jumps), quick spins.
- The sequence must start from the long side of the skating surface in proximity of the transversal axis (near 5 or 6 meters of the axis so it is not confused with a diagonal) and it must arrive on the other long side of the skating surface.
- It is allowed to skate on the pattern just executed.
- The sequence must start from a stopped position or a stop and go position.
- There is not a set pattern to follow.
- The time to do this sequence is maximum thirty (30) seconds.
- No stops (from 3 to 8 seconds) are permitted during the sequence.
- It has a fixed value of three (3) points.

WHAT IS A CHOREOGRAPHIC SEQUENCE FREESKATING

- This footwork sequence is free.
- The skaters must demonstrate the ability to skate on the music and to interpret the music using technical elements such as: steps, turns, arabesque, pivot, ina bauer, spread eagles, (not declared) one rotation jumps, quick spins.
- It will have a set value of 2.0.
- The technical panel will call the element and judges will give their QOE.
