

## SNIPPET THREE 2020

### COVID 19.

It has been an interesting month since the last Snippets. The skating community worldwide has been active with plenty to keep all of us involved if we have wanted to be.

It has also been a time of hard decision making for those heading the sport in NZ and around the world. This has resulted in competitions, that are the highlight of the year, being cancelled. Skating has not been alone and most sports from high level to recreational have been dramatically affected. With an expected announcement on Monday of when we might move to Level 2 the question is are we ready and what does this mean? Hopefully the lockdown time has been used for reflection, evaluation and planning for the future.

**A big shout out to the 23 people who have used this time to complete their License to Learn Workbook.**

If you haven't done this yet, please complete and send to the Artistic Committee. [artistic.secretary@gmail.com](mailto:artistic.secretary@gmail.com).

### ROLLART SIMULATOR

*Dear friends,  
we hope this email finds you all well and safe.*

*The Artistic Technical Commission decided to work on something that allow all the professionals of our sport to spend as much time available practicing with our new tools, so please [click here](#) to access the Rollart 2020 Simulator dedicated to Data Operators.*

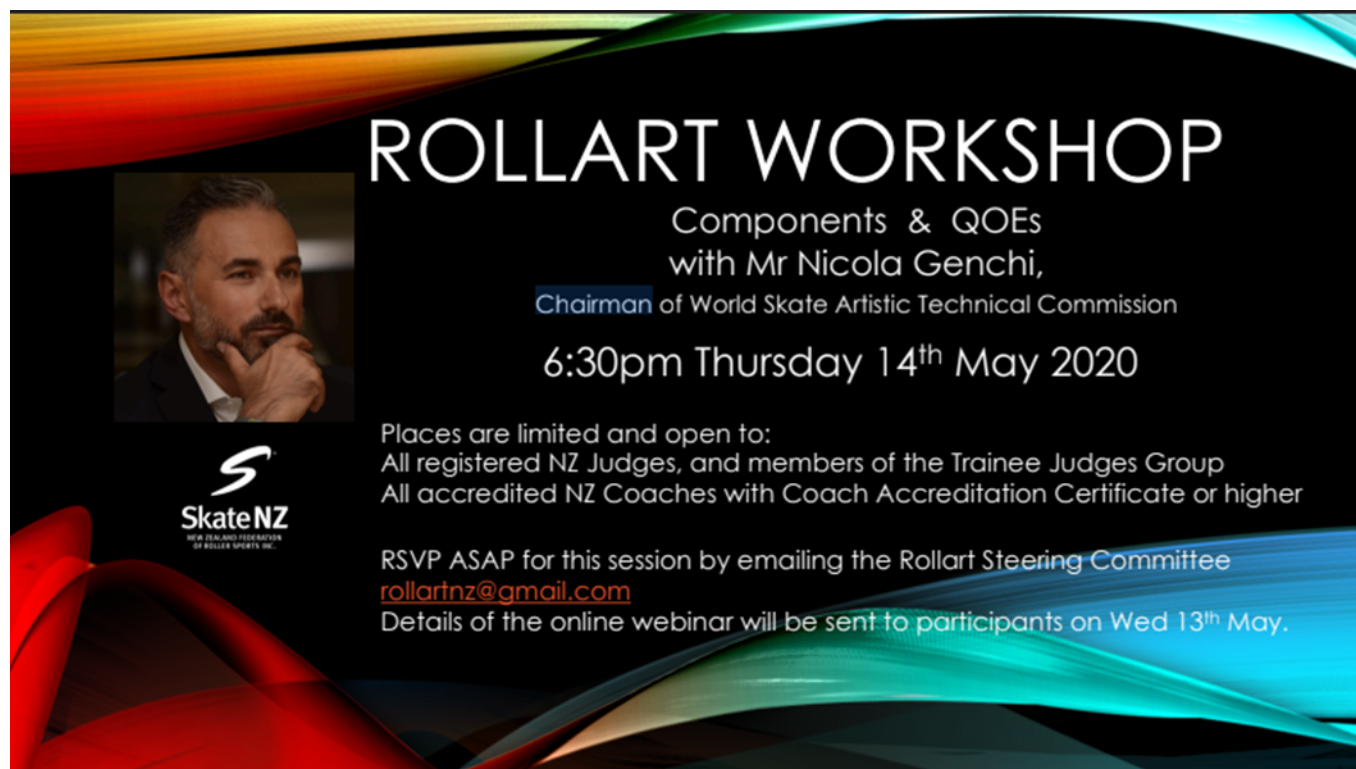

*The simulator will allow Data Operators to become familiar with the new features recently introduced.*

*We really hope you can appreciate and use this simulator to "entertain yourself" as well as appreciate its usefulness.  
Thank you,*

*Best*

*Nicola Genchi*

WORK WITH NICOLA LIVE. MAKE SURE YOU REGISTER TO CONFIRM YOUR PLACE.

*"From 11 of May we are going to start a series of appointments with some LIVE discipline tips. The first one will be with Nicola Genchi, Artistic Skating Chairman Technical Commission. The topic will be the Artistic Inline Skating (Rules2020)"*

STAY SAFE - THINKING OF OUR WORLD WIDE COMMUNITY.

Patrick asks Black or Grey?

Might be the new normal.
